JP Nagar, Bangalore - 560078

OBJECTIVE

Artificial Intelligence & Machine Learning graduate with experience as a Sports Analyst, skilled in Python, SQL, data analysis, and machine learning. Seeking opportunities to apply analytical and problem-solving skills to build data-driven solutions and support impactful decision-making.

EDUCATION

Bachelor of Engineering in Artificial Intelligence and Machine Learning 2021 – 2025
K S Institute of Technology, Bangalore
CGPA: 9.04/10

Narayana PU College, Bangalore 2019 – 2021
Percentage: 93.6%

EXPERIENCE

Hudl | Sports Analyst July 2025 – Feb 2026

- Processed and analyzed large-scale datasets to generate performance insights and support reporting.
- Conducted data validation and quality checks, improving accuracy and consistency.
- Managed structured data ensuring data integrity and efficient data workflows.
- Applied analytical methods to identify patterns and enhance data reliability.
- Delivered results within strict timelines while handling high-volume data operations.

INTERNSHIP

Rooman Technologies Sep 2024 – May 2025
AI – ML Engineer Intern

- Worked on Machine Learning fundamentals using Python, including data preprocessing and basic model implementation.
- Gained exposure to ML workflows, project-based learning, and model evaluation concepts.

PROJECTS

Email Spam Detection July – Aug 2024

- Built a machine learning-based spam classification system on 5,728 emails, applying NLP techniques and TF-IDF vectorization.
- Achieved 97% accuracy using a Multinomial Naive Bayes model with strong precision and recall for reliable spam detection.
- Technologies: Python, Scikit-learn, Pandas, NumPy, NLP, TF-IDF

Farm Management System Jan – Feb 2024

- Built a database-driven web application managing 1000+ farm records for efficient data storage and retrieval across crop, sales, and inventory data.
- Implemented optimized SQL queries and structured workflows, reducing manual data handling effort by 60–70% and improving operational efficiency.
- Technologies: Python, SQL, Database Management, Pandas

SKILLS

- **Programming Languages:** Python, SQL
- **Machine Learning:** NumPy, Pandas, Scikit-learn, Matplotlib
- **Web & Database:** HTML, CSS, JavaScript
- **Fundamentals:** Data Structures and Algorithms, Object-Oriented Programming
- **Tools & Technologies:** Jupyter Notebook, VS Code, GitHub

CERTIFICATIONS

AI-ML Engineer Certification — Rooman Technologies (IBM, NASSCOM, NSDC, Wadhvani Foundation)
Training in machine learning, NLP (Transformer-based project), and real-world implementation with OJT certification.
